**2024 Transportation Loss Factor**

Effective January 1, 2024, the five-year average of gas unaccounted for = 1.3482%. The transportation lost factor = .98652, which is calculated by taking one minus the percentage of gas unaccounted for ( $1 - .013482 = 0.9865$ ) rounded to the fifth decimal place. For billing purposes, the transportation loss percentage/factor changes on a calendar year basis.
