Hubbard Brook Preserve

The Hubbard Brook Preserve was permanently protected when Connecticut Light & Power (CL&P) granted a 75-acre conservation restriction to Connecticut Forest & Park Association (CFPA) in 2007. The ensuing partnership between CL&P and CFPA promises to preserve the natural, scenic, aesthetic and special character of the property. The Preserve offers protected natural habitat for birds, wildlife, plants and similar ecosystems. The Preserve is open to the public for non-motorized, low-impact recreation and enjoyment.

The Connecticut Light and Power Company (CL&P) has been part of everyday life in Connecticut for more than 100 years, providing safe and reliable electric service to homes, neighborhoods and businesses. With 1.2 million customers in 149 cities and towns, CL&P is improving the environments you live in by offering programs in energy conservation, economic development and environmental stewardship. CL&P is a Northeast Utilities company. For more info please visit: www.cl-p.com

The Connecticut Forest and Park Association (CFPA) is a non-profit, membership-based conservation organization whose mission is to connect people to the land, to protect forests, parks, walking trails, and open spaces for future generations. Members, volunteers, and staff participate in a wide range of activities including hiking trail construction and maintenance, environmental education, legislative advocacy, and land conservation. To learn more about CFPA, or become a volunteer or member, please visit: www.ctwoodlands.org or call 860-346-TREE
