YES! I want the protection of the Gas Line Protection Plan!

Gas Line Protection Plan from Pivotal Home Solutions covers repairs to leaks on exposed inside natural gas lines that can develop over time due to everyday wear and tear. You also are entitled to one in-home inspection of your exposed inside natural gas lines, appliance connectors and shutoff valves per year. Leaking and other dangerous connectors will be replaced as part of your coverage.

With the plan, you're protected with up to **\$2,500 of coverage per year** for a low **\$4.95 a month** (plus applicable tax).

For complete information on the plan, including applicable terms and conditions, see the Customer Agreement at

YourHomeSolutions.com/Pivotal.

SAFETY TIP: If you suspect a problem with your natural gas lines or smell natural gas in your home, please leave immediately. Do not operate anything that could cause a spark, including lights, cell phones, flashlights and appliances. From a safe location, call 9-1-1 or Eversource at 800-592-2000. Eversource will dispatch a technician to check the source of the odor and make the area safe.
