EVERSOURCE

Eversource in Your Community

Eversource proudly goes beyond delivering great service to its communities through a number of volunteer programs and major charitable events. Throughout the year, thousands of our employees and family members are making a difference in the communities where we live and work.

You might know us as the title sponsor for the Eversource Walk With Me and 5K Run for Easter Seals New Hampshire, the Eversource Walk for Boston Children's Hospital and the Eversource Hartford Marathon. We are also honored to roll up our sleeves and partner with more than 75 nonprofit organizations across New England, supporting camp clean-ups for children, organizing food donations for the holidays, or sorting

clothing and supplies so kids are ready to succeed in school.

Eversource recently volunteered at the Seacoast Science Center in Rye, helping to get ready for winter and cleaning and maintaining trails around the property.

Can I Shop for an Electricity Supplier?

Did you know that you are able to compare rates from other suppliers for the electric supply portion of your bill? The New Hampshire Public Utilities Commission licenses competitive suppliers within the state and maintains a list of registered suppliers. You can also visit Eversource.com to review a list of important questions to ask suppliers.

What are My Options Regarding Solicitations and Calls?

For some customers, the question regarding competitive suppliers is, "Once I've decided if a supplier is right for me, how do I stop the phone calls?" You can register with the FTC's "Do Not Call List" at Donotcall.gov.

Remember, Eversource will never go door to door to discuss your Eversource bill or electric supply options. Our employees always carry identification, and you can always call us to see if we have sent someone to your home.

Eversource Identifying Drought-Stressed Trees

As New England continues to suffer extreme drought conditions, Eversource tree crews are working to identify trees that have been weakened by the severe dry weather and pose a threat to the reliability of the electric system. Eversource's tree trimming programs play an important role in identifying and removing drought-stressed trees that are also more susceptible to insect infestation and diseases. Our certified arborists work closely with the communities where work is being done, and notify customers in advance of any tree work on their property.

If you are concerned about the health of a tree on your property that is not located near a power line, for your safety, please be sure to contact a local certified arborist or tree management company to assist you.

To learn more about how our tree trimming program is helping to keep your lights on all year long, click on 'Outages' at Eversource.com.

Make Your Plan for Saving Energy and Money

Have you created your energy savings plan? Visit Eversource.com for an analysis of your energy use to better manage energy costs this winter.

Find money-saving solutions tailored to your home, including expected savings and return on investment.

Plus, get connected to rebates, incentives, and payment plans that make larger energy improvements more affordable. Add the recommended solutions to your plan and check them off your list as you complete them.

Navigate to Eversource.com, click on 'Save Money & Energy,' and look for 'Energy Savings Plan' to get started.

Eversource is the . . .

#1 Energy Efficiency Provider in the nation*
