# New Hampshire Electric Assistance Program

You may be eligible for a **discount** of up to 76% on your electric bill.

Effective August 1, 2016

## What is the EAP?

The Electric Assistance Program (EAP) gives eligible customers a discount for the first 750 kWh on their monthly electric bills.\*

The discount ranges from 8% to 76% depending on your gross household income, household size and electricity usage.

Customers of the following utilities may apply for the discount:

**Eversource Energy**

**Liberty Utilities**

**New Hampshire Electric Cooperative**

**Unitil**

*\*Benefits and participation are subject to availability of funds.*

We know that electric customers sometimes need help paying their electric bill. The EAP discount helps make electric bills more affordable. Being able to pay the electric bill every month avoids the risk of service cutoff for nonpayment.

The electric utilities are working with the five Community Action Agencies (CAAs) in the state to identify and enroll eligible customers.

Customers who choose a competitive energy supplier will not receive a discount on the energy supply portion of the monthly bill.
