Your bill includes charges for Delivery Service and, if you have not selected a competitive energy supplier, for Eversource Energy Service. However, if you have selected a competitive energy supplier and if the supplier has made arrangements for Eversource to provide billing services, the supplier’s charges for Energy Service will also be included on your Eversource bill. Any Energy Service charges will appear in the Supplier Services section of your bill. This summary of rates is based on a monthly billing cycle.

Definition of Terms

**Customer Charge** - This charge recovers costs Eversource incurs in providing service to a customer, such as the installation, maintenance and replacement of your meter(s), reading your meter(s), maintaining your account records, and Eversource’s 24-hour customer service center.

**Distribution Charge** - This charge recovers costs related to the maintenance and operation of Eversource’s distribution system, and Eversource’s power restoration and service operations. The kWh charge is based on the amount of kilowatt-hours (kWh) of electricity used during a billing period. The kW charge* is based on the greatest amount of electricity used in any half-hour period during a billing period.

**Transmission Charge** - This charge recovers costs related to the delivery of electricity over the high-voltage or transmission system power lines. The kWh charge is based on the amount of kWh of electricity used during a billing period. The kW charge* is based on the greatest amount of electricity used in any half-hour period during a billing period.

**Stranded Cost Recovery Charge** - This charge helps fund the recovery of Eversource’s past investment costs, including expenses incurred through mandated power contracts and other long-term investments and obligations. The kWh charge is based on the amount of kWh of electricity used during a billing period. The kW charge* is based on the greatest amount of electricity used in any half-hour period during a billing period.

**Energy Charge** - This charge is based on the amount of kWh of electricity used during a billing period. It includes Eversource’s costs, or a competitive supplier’s costs to generate and/or buy power.

*The kW charge, or “demand” charge, applies to non-residential rates.*

Taxes & Surcharges

**System Benefits Charge** - This charge funds energy efficiency programs for all customers as well as assistance programs for residential customers within certain income guidelines.

**Electricity Consumption Tax** - This is a state-mandated tax on energy consumption.

**Late Payment Charge**
A late payment charge of 1.5 percent is applied to amounts previously billed but remaining unpaid after the due date for customers receiving service under Rate GV, Rate LG or Rate B. For all other customers, the late payment charge is 1 percent. This charge is not applicable to income-eligible customers or certain customers who are abiding by the terms of an extended payment arrangement.
**Service Charges**

When you establish or re-establish an electric service account for residential or general service, one of the following service charges will be applied to your electric bill:

- **$14** - When it is not necessary to send an employee to the meter location to obtain a new meter reading to establish service.
- **$35** - When it is necessary to send an employee to the meter location during normal business hours to obtain a new meter reading or to connect a meter.
- **$70** - When it is necessary to send an employee to a meter location outside of normal business hours to obtain a new meter reading or to connect a meter.

**Field Collection Fee**

When it is necessary to send an employee to your location (residential or general service account) to collect a delinquent bill, an $18 field collection fee will be applied to your electric bill.
