

## Spring into Energy Savings – Tips for the Season Ahead

As the warmer weather and longer days greet us, it's the perfect time to adopt energy-saving practices for a cost-effective and sustainable spring.

- Embrace natural light by opening curtains and blinds during the day, reducing the need for artificial lighting and giving your HVAC system a well-deserved break
- Schedule a spring HVAC tune-up to ensure your system is operating efficiently. Clean or replace air filters regularly to maintain optimal airflow
- Ensure your home has adequate air sealing to prevent allergens from entering
