

## MASSACHUSETTS ELECTRIC VEHICLE CHARGING PROGRAM – ELECTRIC VEHICLE SUPPLY EQUIPMENT (EVSE) COMMERCIAL PROJECT QUALIFIED PRODUCTS LIST

### Qualified EVSE Network Software Providers

Only approved EVSE networks from this list are eligible for use in the MA EV Charging Program.

| Software Provider                                       |
|---|
| <a href="#"><u>AmpedUp!</u></a>                         |
| <a href="#"><u>AmpUp</u></a>                            |
| <a href="#"><u>Autel Cloud</u></a>                      |
| <a href="#"><u>Blink</u></a>                            |
| <a href="#"><u>Blue Planet (ChargePanel)</u></a>        |
| <a href="#"><u>ChargeLab</u></a>                        |
| <a href="#"><u>ChargePoint</u></a>                      |
| <a href="#"><u>ChargeUP (Level 2 only)</u></a>          |
| <a href="#"><u>Electric Avenue</u></a>                  |
| <a href="#"><u>Electric Era PowerNode OS (DCFC)</u></a> |
| <a href="#"><u>Electrify America (DCFC)</u></a>         |
| <a href="#"><u>Enel X</u></a>                           |
| <a href="#"><u>EV Connect</u></a>                       |
| <a href="#"><u>EV Gateway</u></a>                       |
| <a href="#"><u>EV Passport</u></a>                      |
| <a href="#"><u>EverCharge</u></a>                       |
| <a href="#"><u>EVgo</u></a>                             |
| <a href="#"><u>EVOKE</u></a>                            |
| <a href="#"><u>Flash Parking</u></a>                    |
| <a href="#"><u>FLO</u></a>                              |
| <a href="#"><u>Ford Charging Pro</u></a>                |
| <a href="#"><u>GreenJoulez (Level 2)</u></a>            |
| <a href="#"><u>InCharge</u></a>                         |
| <a href="#"><u>Integra Energy (SaaS Charge)</u></a>     |
| <a href="#"><u>KWEV</u></a>                             |

| Software Provider   |
|---|
| <a href="#">Leviton</a>   |
| <a href="#">Livingston Energy Group, a<br/>Lynkwell Network</a> |
| <a href="#">Loop</a>  |
| <a href="#">Matcha Electric (Level 2)</a>                       |
| <a href="#">Noodoe</a>  |
| <a href="#">NovaCHARGE</a>                                      |
| <a href="#">Nuvve</a>   |
| <a href="#">PowerFlex X</a>                                     |
| <a href="#">PowerPump</a>                                       |
| <a href="#">Red E Charge</a>                                    |
| <a href="#">Shell Recharge Solutions</a>                        |
| <a href="#">SWTCH</a>   |
| <a href="#">Synop</a>   |
| <a href="#">US Energy Solutions / Energy5</a>                   |
| <a href="#">Wevo</a>  |
| <a href="#">XCharge (DCFC)</a>                                  |
| <a href="#">Xeal</a>  |
| <a href="#">ZEF Energy</a>                                      |
| <a href="#">Zevtron</a>   |

As a reminder, EVSE hardware qualifications for projects in Massachusetts are managed solely by EPRI (Electric Research Power Institute) as of Jan. 1<sup>st</sup>, 2025. Please visit the [Eversource website](#) for more information.

#### Qualified EVSE Hardware – Level 2

Only Level 2 EVSE Hardware products that meet **both below criteria will be approved** for use in the MA EV Program:

- 1) Listed on the EPRI Vetted Product List (VPL) on the Massachusetts tab. The VPL can be downloaded [here](#).
- 2) Listed in the [Massachusetts State Appliance Standards Database](#).

#### Qualified EVSE Hardware – DCFC

Only DCFC EVSE Hardware products that meet **the below criterium will be approved** for use in the MA EV Program:

- 1) Listed on the EPRI Vetted Product List (VPL) on the Massachusetts tab. The VPL can be downloaded [here](#).

**For more information, contact your Account Executive, Make Ready Contractor, or email [MAEVCharging@eversource.com](mailto:MAEVCharging@eversource.com)**
