

Elevate your energy goals for the new year

As you embark on your New Year's resolutions, consider adding energy efficiency to the top of your list. Opting for ENERGY STAR® certified products extends beyond reducing energy usage and costs—it is a commitment to a greener, more sustainable future. Compared to their non-certified counterparts, these products emit fewer harmful emissions and are proven to use up to 15 percent less energy.

As an Eversource customer, you can benefit from discounts and frequent manufacturer markdowns on a diverse selection of energy-efficient products, including:

- Wi-Fi enabled smart thermostats: **up to \$85**
- Advanced power strips: **up to \$40**
- Air purifiers: **up to \$40**
