

Understanding the Seasonal Impact on Rates and Your Bill

The arrival of spring and summer means you can typically expect a lower gas supply rate on your bill. That's because during warmer months, gas demand in the region is lower — heating systems aren't being used and more time is being spent outdoors.

Eversource adjusts your gas supply rate throughout the year to reflect seasonal demand changes. The state's public utility commission reviews and approves all customer rate adjustments before going into effect. Your gas supply rate is based on the actual market cost for Eversource to procure gas, and that cost is passed along directly to you, with no profit to Eversource.

Are you looking for ways to save for your business? We're here to help. Take advantage of Eversource's energy saving resources and energy efficiency programs today by visiting the Save Money & Energy section of [Eversource.com](https://www.eversource.com).

Energy Efficiency Tips for Your Business

Whether you are in the commercial, education, food service, manufacturing, residential, retail or small business industry, we have ways for you to reduce your energy expenses.

Insulation:

Multi-pane windows, some with inert gases between the panes, can provide more than double the insulating capabilities of your existing windows.

Thermostats:

Replacing manual-dial thermostats with inexpensive programmable or smart thermostats could save 5-15% on heating costs.

Get a facility assessment:

We can connect you with qualified energy specialists who will perform a comprehensive no-cost evaluation of your building's energy system and provide you with a plan outlining all eligible measures, costs, and estimated savings.

Celebrating our Environment

From our industry-leading goal of being carbon neutral by 2030 to our leadership advancing clean energy — we're committed to environmental stewardship. On World Environment Day, Earth Day, Arbor Day and all year round, our employees take time to care for Mother Earth. This spring season, the Eversource team cleaned up neighborhoods, local parks and riverways during our week-long Earth Day event, and recognized Arbor Day by planting trees and donating 2,000 saplings.

Eversource arborists partnered with the Connecticut Notable Tree Committee and the Tree Wardens Association of Connecticut for pruning to improve the health of the state's largest and most historic trees.

Solutions to Cut Costs and Save Energy

Whether you run a small restaurant, a large industrial complex, an educational facility or any type of business in-between, we have solutions on our website to help you save money and energy.

We have facility assessments, online tools, equipment rebates and discounts, new construction resources and much more, all available at the click of a button.

Visit **Eversource.com** and click on Business in the top left to see the tools we offer to save you money and energy.

Stay Safe Around Eversource Work Zones

June is National Safety Month. As the weather gets warmer, there will be more Eversource crews conducting important work to our infrastructure.

For your safety and that of our workers, it's important to recognize Eversource work zones while driving so you can respond to warnings and traffic patterns and pass through safely. Eversource crews set up safety cones and signage ahead of projects that alert you to approach the work zone with caution.

Crews also communicate with municipal traffic control personnel to manage traffic flow and let them know about any changes to the work zone setup. Our workers wear high-visibility reflective apparel. Please be alert for them. If you happen to see our workers in your neighborhood, please wave rather than approach them. We continue to practice physical distancing during this pandemic to ensure everyone's safety.

For more safety tips visit the Safety section of **Eversource.com**.

Say Goodbye to Electric Vehicle Range Anxiety

To provide drivers with effective and convenient charging options for long-distance electric vehicle (EV) travel, Eversource is joining the Electric Highway Coalition. The coalition will advance clean energy by enabling EV drivers' access to uninterrupted travel across major regions of the country. The coalition is creating an organized network of chargers along major highways.

At the same time, Eversource is deploying one of the largest EV charging programs in the nation. We're rapidly advancing to our goal of providing 3,500 charging ports across Massachusetts, and we're seeking regulatory and state approval for EV programs in Connecticut and New Hampshire.

Our program and this coalition will play vital roles in reducing carbon emissions across the region. To learn more about Eversource's commitment to sustainability go to **Eversource.com/sustainability**.

Are There Programs to Help Me Pay My Bill?

If you have concerns about paying your bill, call us right away at 800-682-3637 or visit **Eversource.com/BillHelp**. We have flexible payment plans for businesses to help.
