

smell.
leave.
tell.

Recognize a gas leak.
Keep yourself safe.

Smell rotten eggs in your home or at work? It could be a gas leak. And the first thing to do is to go outside, then call 911.

EVERSOURCE

HOW TO detect gas:

SMELL IT.

Natural gas is colorless and odorless. A distinctive, pungent odor, similar to rotten eggs, is added for quick recognition.

SEE IT.

You may see a white cloud, mist, fog, bubbles in standing water or blowing dust. You may also see vegetation that appears to be dead or dying for no apparent reason.

HEAR IT.

You may hear unusual noises like roaring, hissing or whistling.

IF YOU detect gas:

- **GO OUTSIDE**
- **CALL 911** immediately or Eversource at 877-944-5325.
- **DO NOT** smoke or operate electrical switches, appliances, cell phones or land lines. These items may produce a spark that can ignite the gas and cause an explosion.
- **DO NOT** assume someone else will report the condition.
- **PROVIDE** the exact location, including cross streets.
