

# Welcome to your new electric bill EVERSOURCE

We know that your electric bill can be confusing, so this month, we're introducing some changes to help make it easier to read and understand exactly what you're paying for each month.

Please note, customers with multiple service accounts on a single bill will not see changes to their bill format at this time.

- Important information about your account, such as the Service Reference Number, Service Address, Next Meter Read Date, and Meter Reading Cycle, can be found here, on page one. You'll need some of this information if you elect to change your electric supplier.
- You can compare how your energy use changes by month in this graph. The charges on your bill are calculated by how much energy you use each month.
- Your current charges are broken into four categories – Supply, Transmission, Local Delivery and Public Benefits – with clear definitions of each.
- This chart shows both the dollar amount and percentage of your current monthly charges.
- If you have chosen another electric supplier, important information is listed here, including a comparison of your current supply costs to what you would have paid on Standard Service.
- Scan this QR code to learn more about your bill, including definitions of each charge in the Total Charges for Electricity section of your bill.
- The line items under Total Charges for Electricity correspond with the colors and categories shown in the chart on page one.

## Take Control of Your Energy Costs.

This winter, energy costs are expected to be higher once again and no one wants to see rising energy prices. We want you to know that you can take control of your electric supply costs by choosing a supplier that offers a lower rate.

### SHOP

Review and compare available rates on the [EnergizeCT.com Supplier Rate Finder](https://www.energizect.com/supplier-rate-finder).

### SIGN UP

Choose a supplier that offers a lower rate. For residential customers, supplier rates must be fixed, last at least four months, and cannot include early termination or cancellation fees. It's a good idea to set reminders and regularly check energy supply rates throughout the year to make sure you're still getting the best deal.

Whether you choose our current standard service supply rate or another supplier, we'll still deliver your power, care for the poles and wires, provide customer service, and restore power if there is a service interruption.

### SAVE

There are suppliers currently offering lower rates with contracts that extend through the winter. Be prepared for the heating months and take control of your energy costs today.

**Go to [Eversource.com/supplier](https://www.eversource.com/supplier) to get started.**
