

Recycle an Appliance and Earn \$30

Cleaning house or looking for ways to lower your energy use?

De-clutter and save by recycling your inefficient refrigerator or freezer.

Running a spare refrigerator or freezer can cost over \$125 in energy, every year--we're here to help cut that.

Recycle your appliance responsibly at **no cost** and earn a \$30 rebate.

Contactless pick up is available.

Visit eversource.com/appliance-recycling
or call **888-997-8892** for information
or to schedule your pick up.

Energy-Saving Home Heating Options

Do cooler temperatures have you thinking about upcoming home heating expenses?

If you're looking for a money- and energy-saving solution to a more comfortable home, consider a heat pump.

Since they work with or without air ducts, they can support your entire home, specific rooms in your home, or a new addition. Not to mention they can provide cooling for the warmer months.

The average rebate received is \$4,000.
