

Help Massachusetts Reduce Emissions and Earn \$70

Join ConnectedSolutions and earn \$70 per thermostat enrolled in the first year.

Enrolling a smart thermostat in ConnectedSolutions allows us to adjust the temperature by a few degrees during periods of high energy demand. On hot summer days, peak demand increases the electricity load on the grid. Automatic, small adjustments to your thermostat lower that demand and decrease overall energy usage during certain times - which reduces our reliance on fossil fuels.

Earn \$50 when you enroll an eligible Wi-Fi thermostat and \$20 each year for participating in peak events.

Visit eversource.com/demand-response to get started.

Proud Sponsor of

Enhanced Incentives: Have You Checked if You Qualify?

As a proud Sponsor of Mass Save®, Eversource offers enhanced incentives to help with the cost of energy-saving upgrades. You may qualify for:

- A no-cost Home Energy Assessment
- 100 percent off recommended insulation upgrades and no-cost air sealing
- Up to \$16,000 off the cost of qualifying air source heat pumps
- Up to \$25,000 off the cost of qualifying ground source heat pumps
- Up to \$7,000 upfront towards the removal of vermiculite and/or knob and tube wiring

You may qualify if your household income is up to \$116,000 for a family of four or up to \$60,000 for an individual.

Visit eversource.com/enhanced-incentives or call 866-527-SAVE to find out if you are eligible today.
