

Recycle and Save

Have your working, inefficient refrigerator or freezer picked up at no cost and receive a **\$75 incentive**.*

Recycling helps reduce greenhouse gas emissions, lower energy demand and keep harmful materials out of the environment. Plus, your appliance's materials are repurposed to create new products, supporting a sustainable future.

**Participant must be a valid Eversource account holder. Appliance must be residential size (10-30 cubic feet), picked up at the services address, in working order, empty and clean. Limit of two appliances per household per calendar year.*

Visit **eversource.com/appliance-recycling** for more details.

Cape Cod and Martha's Vineyard customers should visit capelightcompact.org.

Savings Flow Like Hot Water

\$750 Instant Discount on Heat Pump Water Heaters

Save up to \$496* annually with an ENERGY STAR® certified heat pump water heater. These highly efficient systems use up to 70 percent less energy than traditional electric models by drawing warmth from the surrounding air to heat water.

Enjoy consistent hot water, lower energy bills and convenient features like “vacation mode” for added savings.

**Based on 1,712 kWh annual energy savings information located in the 2025-2027 MA Technical Reference Manual and the residential electric cost of 29 cents/kWh in Massachusetts.*

Visit **eversource-ma.com/heat-pump-water-heater** for more details.
