

Save with Even More Incentives

Eversource, a proud Sponsor of Mass Save®, is offering even more incentives designed to assist income qualifying customers in reducing energy consumption and increasing comfort. Benefits may include:

- A no-cost Home Energy Assessment, with up 75-100% off recommended insulation upgrades and no-cost air sealing
- Up to \$16,000 off the cost of qualifying air source heat pumps
- Up to \$25,000 off the cost of qualifying ground source heat pumps
- Up to \$7,300 off the cost of qualifying condensing boilers and furnaces
- Up to \$7,000 towards the removal of vermiculite and/or knob and tube wiring

You may qualify if your family of four has a household income of up to \$108,000 or if you are an individual with a household income of up to \$56,000.

Visit [MassSave.applytosave.com](https://masssave.applytosave.com) or call 1-866-527-SAVE to find out if you are eligible for enhanced incentives today.

Fall in love with battery-powered lawn equipment

Reduce your home's carbon footprint by swapping out your gas-powered lawn equipment with ENERGY STAR® certified battery-powered equipment. According to the Electric Power Research Institute, if we replaced half of all gas-powered lawn mowers with electric ones, we could cut emissions equivalent to removing two million vehicles from the road.

To make the switch even easier, Eversource offers a \$75 rebate on lawnmowers and a \$30 rebate on leaf blowers, string trimmers and chainsaws.

Why go electric?

- Quieter operation
- Easier to maneuver
- Less maintenance
- Cleaner for the environment

Visit eversource.com/lawn-equipment to learn more and start shopping today.
