

Need help finding a qualified contractor? We're here to help!

Are you replacing or upgrading the efficiency of your current natural gas equipment — or adding gas heat?*

Through our contractor network, Eversource offers our customers competitive, pre-negotiated pricing on a variety of well-respected brands of heating and water heating natural gas equipment. Our network consists of qualified local contractors.

Connect to a **value price contractor.**

It's easy! Just scan this QR code, or call us at:

**855-645-2427, Mon. – Fri.,
8a.m. – 4:30p.m.**

Eversource advises customers to get at least three quotes when hiring a contractor to compare pricing and services.

** If you already have gas service and install natural gas heating for the first time, call us to let us know. We will adjust your rate to the heating rate.*

EVERSOURCE
Eversource.com

October is Energy Awareness Month and Eversource is here to connect you with solutions to help with winter energy costs.

Did you know that a weatherized home uses up to 20% less energy?

Weatherization is the process of making your home better protected against the effects of changing weather and can include:

- Sealing air leaks
- Adding insulation
- Sealing ductwork

As a result, you'll notice:

- Your heating system works less to keep your home at the desired temperature
- You're more comfortable thanks to less drafts
- A cleaner home as allergens, like dust and pollen, are kept out
- Reduced energy use

See all the ways we can help by visiting eversource.com/home-energy-assessment.
