

Bright Savings with LED Light Bulbs

Swap your incandescent light bulbs with ENERGY STAR® certified LEDs for a quick, inexpensive way to save money and energy.

LEDs are a smart choice – they use 80 to 90 percent less energy and last up to 25 times longer.

There is an LED for every task from studying to casual reading and kitchen prep. Look for instant discounts at participating retailers or purchase through the Mass Save online store.

Visit the Efficient Products page under the Save Money & Energy section of [Eversource.com](https://www.eversource.com) for more information.
