

Save Money and Energy with a Virtual Assessment

Becoming more energy efficient can help you save money

- For a limited time, enjoy enhanced incentives on all approved energy-saving measures when you complete a no-cost virtual assessment
- Any installations that require a technician will be scheduled for a later date
- Offer is available through October, 15 2020 or while funding lasts

Signing Up For a Virtual Assessment is Easy

1. Schedule a time to connect with an Eversource energy expert via phone or video
2. During your assessment, we'll identify energy-saving opportunities
3. You'll then receive a detailed report on ways you can save money and energy
4. We'll mail you items you can install yourself to start saving immediately

Small retailers, professional offices, manufacturers, restaurants, independent grocers or any small business in Eversource service territory using 300 kW or less each year can call to learn more and request a virtual assessment.
