

Fully Charged Rebates

Whether you're considering buying your first EV or are ready to setup home charging, we can help.

Our rebates will provide **up to \$1,400** to offset the cost of installing a level two smart charger, which can charge your vehicle up to four times faster than a standard charger.

Customers on our Discount Rate can also receive a rebate for **up 100% of the cost** of the charger itself.

If you don't yet have an EV, **check out our online buyer's guide.**

EVERSOURCE

Reduce your heating costs and increase comfort

Proper insulation and air sealing can improve the comfort and energy efficiency of your home and cut your heating and cooling costs by an average of 20%.

Weatherizing can also help:

- Decrease outside noise and prevent pests and pollen from entering your home
- Lower the risk of ice dams and protect your roof from potential damage
- Reduce cold drafts

A no-cost Home Energy Assessment can help you discover opportunities to save energy and be more comfortable in your home. You may qualify for no-cost air sealing, 75-100% off approved insulation upgrades, 0% financing opportunities and other incentives.

Visit eversource.com/home-energy-assessment to get started today.
