

Important Notice to Eversource Customers located in Boston, Cambridge and New Bedford

The logo for Eversource, featuring the word "EVERSOURCE" in white, uppercase letters on a blue rectangular background. The letter "E" is stylized with a horizontal line through its center.

Interested in installing a solar photovoltaic (PV) system at your home or business in the Boston, Cambridge or New Bedford area?

If so, please know certain areas of the Eversource electric distribution system in the Cities of Boston, Cambridge and New Bedford may present challenges for interconnection to a solar PV system.

Eversource customers in this region, known as the **Area Network**, should be aware that while some locations may be able to accommodate a solar PV system interconnection, other locations may be less suitable.

If you are a property owner in Cambridge, New Bedford, or one of the Boston neighborhoods listed below, and are interested in installing a solar PV system, please contact us by email at EMDG@eversource.com or by phone at 1-800-340-9822, prior to beginning your project.

An Eversource Network Engineer will review the location of your request and contact you to share the results of their evaluation and any additional information or options that may be available.

Area Network regions include Cambridge, New Bedford and the following Boston neighborhoods:

1. Beacon Hill
2. Back Bay
3. Chinatown
4. Downtown
5. Fenway area (certain areas)
6. Financial District
7. North End
8. South End (certain areas)
9. Theater District
10. West End

Additional information, including the [Standards for Interconnection of Distributed Generation](#) are also available at Eversource.com, and provide additional guidelines for customers interested in solar for their home or business.
