Explanation of your charges

** The Combined Public Benefits Charge represents a combination of three charges formerly known as: Conservation and Load Mgmt Charge, Renewable Energy Investment Charge, and System Benefits Charge. This charge also includes the Conservation Adjustment Mechanism approved by the Public Utilities Regulatory Authority in Docket No. 13-11-14.

** Effective January 1, 2007, the Generation Services Charge (GSC) and the Bypassable Federally Mandated Congestion Charge (BFMCC) have been combined into the "GSC Charge" listed in the Supplier Services section of your bill. The GSC reflects all of the cost of procuring energy from Eversource wholesale suppliers. The BFMCC portion of this line item is \$0.0003/kWh. If you multiply this BFMCC rate by the number of kWh on your bill, you can calculate the dollar amount associated with the BFMCC.

*** Distribution Adjustment to be collected over 24 months beginning December 1, 2015, as a result of an accumulated deferred income tax adjustment.
