**NSTAR ELECTRIC COMPANY
d/b/a EVERSOURCE ENERGY**

**REQUEST FOR PROPOSALS
FOR POWER SUPPLY FOR BASIC SERVICE**

January 17, 2023

I. Introduction and Background

NSTAR Electric Company d/b/a Eversource Energy (“NSTAR Electric” or the “Company”) is requesting wholesale power supply bids to provide 100% of All-Requirements Service¹ to its Industrial Basic Service customers in the NEMA and SEMA Load Zones commencing April 1, 2023 and terminating June 30, 2023. In addition, the Company is requesting wholesale power supply bids to provide 25% of All-Requirements Service to its Commercial Basic Service customers in the NEMA Load Zone commencing July 1, 2023 and terminating December 31, 2023. The full terms of the procurement are detailed in this Request for Proposals (“RFP”). Final bids are due on Tuesday, February 14, 2023 by 10 a.m. Eastern Prevailing Time (“EPT”).

The Massachusetts Electric Industry Restructuring Act of 1997 (the “Act”) provides for competition in the electric utility industry by extending competition in the wholesale power supply markets to retail customers through the provision of retail access to all customers. The Act provides access for all retail customers of NSTAR Electric as of March 1, 1998. The Act requires an electric distribution company to provide Basic Service to those customers who are not receiving generation service from a competitive retail supplier. The Act further requires Basic Service to be competitively procured. In addition, the Massachusetts Department of Public Utilities (“DPU” or the “Department”) ordered all electric companies in Massachusetts to procure Basic Service through competitive solicitations by customer group (Residential, Commercial and Industrial) and to procure such power at fixed monthly prices. In subsequent proceedings, the DPU required electric companies in Massachusetts to procure Basic Service supply on a load zone-specific basis and to establish separate Basic Service prices for each load zone for Industrial customers and to procure Basic Service supply on a quarterly basis for Industrial customers.²

NSTAR Electric is a subsidiary of Eversource Energy, with a principal place of business in Boston, Massachusetts. NSTAR Electric is hereby issuing this RFP for power supply offers from qualified power suppliers (“Suppliers”) to supply firm, load-following power to meet the Basic Service requirements (as defined below) for customer groups on a load zone-specific basis for the Delivery Term. Although Suppliers need not provide bids for each tranche of Basic Service, Suppliers must provide separate fixed monthly prices for each tranche bid. NSTAR Electric plans to award the power supply for Basic Service by load zone based on the proposals that provide the best value and satisfy the needs of its customers. NSTAR Electric has a uniform zonal rate for Commercial, and Large Commercial and Industrial customers in Northeast Massachusetts Reliability Region

¹ See the attributes of “All-Requirements Service” described in Section IV “Nature of Service.”

² Default Service, D.T.E. 02-40-C (September 11, 2003).

(“NEMA”), and a separate, uniform zonal rate in Southeast Massachusetts Reliability Region (“SEMA”).

II. Basic Service Requirement

NSTAR Electric is soliciting offers for All-Requirements Service, by load zone, to supply NSTAR Electric’s end-use customers in the Industrial customer group in the NEMA and SEMA Load Zones and Commercial customers in the NEMA Load Zone who take service pursuant to the Company’s Basic Service Tariffs. Basic Service is provided to retail customers who are not taking service from a competitive supplier. Service to customers can be initiated by: (a) a customer notifying NSTAR Electric that it wishes to terminate service from its competitive supplier and commence Basic Service; (b) a competitive supplier notifying NSTAR Electric company that it is terminating service to a customer; (c) a competitive supplier ceasing to provide service to a customer; or (d) a customer moving into NSTAR Electric’s service territory, who has not affirmatively chosen a competitive supplier.

A. Industrial

All-Requirements Service to begin on hour ending 0100 EPT on April 1, 2023, and terminate on hour ending 2400 EPT on June 30, 2023, for four tranches of 25% each totaling 100% of the Basic Service load for customers in the Industrial Customer Group, comprising the following load assets:

Zone	Asset Name	Asset ID #
NEMA:	DEF_SERVICE_IND_BECO_LOAD	1485
NEMA:	DEF_SERVICE_IND_CAMBRIDGE_LOAD	1491
SEMA:	DEF_SERVICE_IND_BECO_SEMA_LOAD	8123
SEMA:	DEF_SERVICE_IND_COMM_LOAD	1488

B. Commercial

The All-Requirements Service period to begin on hour ending 0100 EPT on July 1, 2023 and terminate on hour ending 2400 EPT on December 31, 2023 for one tranche of 25% of the Basic Service load for the Commercial customer group, comprising the following load assets:

Zone	Asset Name	Asset ID #
NEMA:	DEF SERVICE COM BECO LOAD	1484
NEMA:	DEF SERVICE COM CAMBRIDGE LOAD	1490

In total NSTAR Electric will purchase 100% of the Industrial Basic Service load for the second quarter of 2023 for the NEMA and SEMA Load Zones Zone and 25% of the Commercial Basic Service for the second half of 2023 for the NEMA Load Zone. Suppliers must offer to supply the entire load for the applicable Delivery Period in each customer group tranche bid upon. NSTAR Electric will consider only fixed price bids that can be evaluated on a monthly \$/MWh basis.

III. Delivery

The All-Requirements Service supply for Basic Service is to be delivered to the Pool Transmission Facilities (“PTF”) within the NEMA and SEMA load zones, as appropriate for delivery to each customer taking Basic Service. NSTAR Electric will make arrangements for NEPOOL Regional Network Service, which provides for transmission over PTF, and Local Network Service from any applicable local transmission provider(s), which provides for transmission over non-PTF. NSTAR Electric will be billed by ISO New England Inc. (“ISO-NE”) and the applicable local transmission provider(s) for these services. NSTAR Electric will pay these bills and recover the costs, along with its distribution costs, from its customers through its retail distribution tariffs. Any other transmission or distribution costs will be the Supplier’s responsibility.

IV. Nature of Service

Each Supplier with an accepted proposal will be assigned a share of the appropriate NSTAR Electric load asset in the ISO-NE settlement system, and will be required to satisfy all ISO-NE Tariff obligations associated with that load asset. The Supplier of Basic Service for each customer group and load zone shall be responsible for meeting a fixed percentage of the service requirements for NSTAR Electric’s customers in the customer group and load zone taking such service. These service requirements include delivery, to the PTF within the NEMA and SEMA load zones, of the portion of the electric capacity, energy and ancillary services required to meet the needs of NSTAR Electric’s Basic Service customers pursuant to the terms of ISO-NE Tariffs and the applicable Master Power Supply Agreement (“MPSA”). The Supplier shall be responsible for all transmission and distribution losses associated with delivery of energy from the Delivery Points to the ultimate customers’ meters.

The Supplier(s) of All-Requirements Service are not required to provide NSTAR Electric’s renewable energy obligations resulting from the Massachusetts Renewable Energy Portfolio Standards promulgated at 225 CMR 14.00 and 15.00 et seq., the Alternative Energy Portfolio Standard promulgated at 225 CMR 16.00 et seq., or the Clean Energy Standard (CES) promulgated at 310 CMR 7.75. These requirements will be managed separately by NSTAR Electric.

V. Expected Loads

Although NSTAR Electric customers may leave Basic Service to take service from competitive suppliers, and may return to Basic Service, Industrial customers are restricted from returning to their previous competitive supplier for a period of six (6) months after leaving that supplier’s service pursuant to the Department’s decision in NSTAR Electric Company, D.T.E. 05-84 (2006). These rules were adopted to prevent competitive retail suppliers from using Basic Service as a free option to park load when the price of Basic Service is below market due to market timing and energy price movements. There are some limited exceptions to these rules, and the rules may be updated by the Department from time to time.

Recently there has been significant activity regarding municipal aggregation in the NSTAR service territory. The aggregation programs are designed to move customers from Basic Service to competitive supply and are administered independently. Some of these programs may receive

approval during the term of this RFP. Suppliers should refer to the DPU website for more information and updates on the status of plans in the Commonwealth.

To help Suppliers determine the potential load requirements NSTAR Electric is providing the following information electronically via NSTAR's web site at:

[https://www.eversource.com/Content/general/about/doing-business-with-us/energy-supplier-information/wholesale-supply-\(eastern-massachusetts\)](https://www.eversource.com/Content/general/about/doing-business-with-us/energy-supplier-information/wholesale-supply-(eastern-massachusetts))

- ❑ A copy of this RFP
- ❑ A copy of the Form of Master Power Supply Agreement
- ❑ A Bid Form.
- ❑ Aggregate historical hourly *reconciled* Basic Service load (including losses) by customer group, by distribution company, for the period March, 2003 through September, 2022, plus aggregate historical hourly *preliminary* Basic Service load (including losses) by customer group, by distribution company, for the period October, 2022 through December, 2022.
- ❑ Copies of monthly NSTAR Electric reports illustrating the number of Basic Service and competitive supply customers enrolled and their energy consumption by load zone and rate schedule. In addition, the Massachusetts Department of Energy Resources supplies electric customer migration data on its website.

NSTAR Electric cautions Suppliers that historical load data is not a guarantee of future load volumes. It is understood and agreed that NSTAR Electric shall have no liability or responsibility to any entity resulting from the use or reliance upon any such information. Suppliers are responsible for forecasting their obligations on an hourly, daily, and monthly basis. However, NSTAR Electric will provide Suppliers with certain information to facilitate the projection of load requirements. Such data includes the history of energy and peak Basic Service load, with periodic updates to such information.

Suppliers may not limit the amount of supply that may or must be purchased by NSTAR Electric in each tranche, but may elect to bid only specific tranches of the load if the Supplier is willing to serve only particular customer groups or load zones. The amount of power supply for each customer group or load zone to be supplied by the winning Supplier(s) will be determined in accordance with the procedure contained in Article 6 of the MPSA.

VI. Proposals

Each proposal must be approved by an authorized official of the Supplier, containing the bid price information required in the Bid Form. Suppliers must have an executed MPSA and demonstrate an ability to comply with NSTAR Electric's financial assurance requirements prior to submitting a proposal. In addition, proposals should contain explanatory, descriptive and/or supporting materials as necessary. Each proposal must conform to the requirements of Section "VII. Terms and Conditions" below, and must specify in the Bid Form the price at which the Supplier will provide Basic Service for each customer group and load zone. Proposals shall be stated on an "as-delivered" energy basis with prices stated on a fixed \$/MWH basis. Prices may vary by calendar month, but must be uniform for the entire calendar month and cover the entire Delivery Term of the tranche selected by the Supplier. In addition, prices may not contain demand

components or vary by time-of-use within a calendar month. Proposals that contain restrictions on the amount of power supply in any tranche, or any other conditions other than as expressly permitted herein shall be rejected.³ Suppliers shall specify a price for each customer group on which it bids. The price for each tranche, customer group or load zone may be different.⁴

An authorized officer or other authorized representative of the Supplier certifies by its submission of its bid that: the Supplier has reviewed the RFP and all attachments and has investigated and informed itself with respect to all matters pertinent to the RFP and its proposal; the Supplier's proposal is submitted in compliance with all applicable federal, state and local laws and regulations, including antitrust and anti-corruption laws; and, the Supplier is bidding independently and that it has no knowledge of the substance of any proposal being submitted by another party in response to this RFP. Violation of any of the above requirements may be reported to the appropriate government authorities.

VII. Terms and Conditions

All proposals shall constitute an offer to sell to NSTAR Electric Basic Service supply to the applicable customer groups and load zones. All proposals shall be required to be received by NSTAR Electric no later than 10 a.m. on Tuesday, February 14, 2023, and must be held open until the earlier of 3 p.m. EPT on Tuesday, February 14, 2023, or the date and time at which such offer is either accepted or rejected by NSTAR Electric. Pricing or other terms contained in a proposal may not be changed or withdrawn during this period. NSTAR Electric is not required to consider submissions received after the 10 a.m. deadline.

Each winning Supplier selected by NSTAR Electric will provide Basic Service to NSTAR Electric in accordance with the terms and conditions of the MPSA. All Suppliers are required to have in place an executed MPSA and agreed form of Transaction Confirmation prior to submitting bids. Winning suppliers will be required to execute the applicable MPSA Transaction Confirmation documents within one (1) business day of being notified that it has been selected as a winning Supplier, and to provide any required financial assurance in accordance with the terms of the MPSA.

Should a Supplier (who does not currently have a MPSA in place) request NSTAR Electric to consider any changes to the form of MPSA prepared by NSTAR Electric, such request should be presented in the form of a mark-up to the MPSA to NSTAR Electric by 4 p.m. EPT on Friday, January 27, 2023. A Supplier must have a fully-executed MPSA in place with NSTAR Electric prior to the submission of any proposal.

VIII. Right to Select or Reject Supplier

³ For example, a Supplier offering to supply the industrial customer group in the NEMA load zone must agree to supply a fixed percentage of the needs of that group. The Supplier may not offer to serve a fixed percentage of the industrial customer group in the NEMA load zone with the condition that the amount of service purchased does not exceed a specified MW level in any given hour.

⁴ For example, a Supplier may bid to serve the industrial customer group in the SEMA load zone at \$A/MWh for the month of April 2023. For the month of May 2023, a Supplier may bid to serve the industrial customer group in the SEMA load zone at \$B/MWh.

Although it is NSTAR Electric's firm intent to select Suppliers as a result of this RFP, NSTAR Electric shall have the exclusive right to select or reject any or all of the proposals submitted, at any time and for any reason. NSTAR Electric may disregard any bid submission not in accordance with the requirements contained in this RFP. Further, NSTAR Electric expressly reserves the right, in its sole and absolute discretion, to seek clarifications of any submissions, to negotiate to seek modifications to any submissions, to unilaterally change the schedule described herein or modify any of the rules, requirements and procedures referenced herein, to seek additional information, to terminate the process described herein, and to invite any (or none) of the Suppliers to participate further in the process, all without prior notice to other potential parties.

A person's or an entity's preparation for this process, submission of information in response to this RFP, or participation in this process shall not operate to vest any rights in that person or entity or to create any duties or obligations for NSTAR Electric.

IX. Supplier Requirements for Basic Service

Each Supplier must obtain all necessary regulatory and other approvals required to enable it to provide the applicable service prior to the submission of any bid. Each Supplier submitting a proposal must meet certain conditions, including but not limited to:

- A. Each Supplier must be a member of NEPOOL and have an accepted Market Participant Service Agreement and settlement account established with ISO-NE and be in good standing and in compliance with all ISO-NE Policies (including, without limitation, the Financial Assurance Policy) at the time of its proposal submission and throughout the term of the period covered by this RFP;
- B. Demonstrate that it has the financial resources to perform its obligations. Further, the Supplier must be prepared to provide financial assurances and instruments satisfactory to NSTAR Electric to cover NSTAR Electric's costs in the event of a Supplier default. NSTAR Electric shall calculate the potential exposure associated with a Supplier default, and in the event such exposure exceeds the applicable unsecured credit rating limit, Supplier shall be required to provide an irrevocable letter of credit or other security in a form and amount and from an issuer acceptable to NSTAR Electric. If Supplier has a Guarantor, Supplier shall deliver to Buyer prior to bid submission a guaranty in a form acceptable to Buyer for prompt payment by Guarantor when due of all present and future payment obligations of Supplier in an amount that is no less than \$5 million. NSTAR Electric will not provide financial assurances under any circumstances.
- C. Demonstrate its own experience and qualifications (not that of its affiliates or special purpose entities) to provide the Basic Service offered;
- D. Commit to assisting and cooperating with NSTAR Electric in any regulatory or judicial process relating to the proposed purchase, at the Supplier's expense;

- E. Demonstrate the ability to meet the labeling and disclosure requirements of the Massachusetts legislation for all resources bid.
- F. Each Supplier must be authorized by the Federal Energy Regulatory Commission to sell wholesale power.
- G. Comply with the requirements set forth in this RFP.

X. Retail Customer Relationships

All customers taking Basic Service covered by this RFP remain retail customers of NSTAR Electric. As the retail provider, NSTAR Electric performs billing and customer service functions for all customers taking Basic Service.

XI. Regulatory Approval

Any agreement(s) entered into for the delivery of Basic Service pursuant to this solicitation will be subject to the DPU’s favorable review of the results of NSTAR Electric’s solicitation for Basic Service. Section 1 of the NSTAR Electric Master Power Supply Agreement Form of Confirmation reflects this review standard, which NSTAR Electric will require to be adopted for all Transactions subject to this solicitation. The Supplier is responsible for obtaining any applicable regulatory approvals for its obligations as stated above, and for satisfying any reporting requirements of the Federal Energy Regulatory Commission.

XII. Process and Schedule

A. Schedule

NSTAR Electric intends to adhere to the following schedule, although it reserves the right to modify the schedule at any time at its sole discretion.

Process Step	Date
Issue Request for Proposal	Tuesday, January 17, 2023
Fully Executed MPSA in Place	Friday, January 27, 2023
Final Bids due	Tuesday, February 14, 2023 – 10:00 a.m. EPT
Award Group selected	Tuesday, February 14, 2023 no later than 3:00 p.m. EPT
Transaction Confirmation Documents Executed	Wednesday, February 15, 2023 no later than 5:00 p.m. EPT
Service Begins	April 1, 2023 for Industrial Customers and July 1, 2023 for Commercial Customers

B. Communications

All proposals must be made by E-mail, addressed to both the primary and alternate contact listed below:

E-mail: noreen.leopardi@eversource.com
tracey.lengyel-krechko@eversource.com

All other communications regarding this RFP may be made by E-mail, or addressed to:

Eversource Energy Service Company
Electric and Gas Energy Supply
107 Selden Street
Berlin, CT 06037

Att: Noreen Leopardi
Att: Tracey Lengyel Krechko

Fax: 860-665-4584

C. Confidentiality

NSTAR Electric agrees that it shall use commercially reasonable efforts to treat the non-public information it receives from Suppliers in a confidential manner and will not, except as required by law or in a regulatory proceeding, disclose such information to any third party or use such information for any purpose other than in connection with this RFP; provided that, in any regulatory, administrative or jurisdictional proceeding in which confidential information is sought, NSTAR Electric shall take reasonable steps to limit disclosure and use of said confidential information through the use of non-disclosure agreements or orders seeking protective treatment, and shall inform the Supplier if confidential information is being sought. Notwithstanding the foregoing, in any regulatory proceeding in which such confidential information is sought and a request for confidential treatment is made to the DPU, NSTAR Electric shall not be responsible in the event that it is determined that the request for treating information in a confidential manner is not warranted. The Supplier shall be required to use commercially reasonable efforts to treat all information received from NSTAR Electric in a confidential manner and will not, except as required by law or in a regulatory proceeding, disclose such information to any third party.

D. Evaluation

Proposals will be evaluated on the following bases:

1. Lowest evaluated bid price by customer group and load zone;
2. Compliance with non-price bidding requirements; and
3. Risk relative to price and ability to serve the load.

In evaluating bid prices, NSTAR Electric will weigh monthly bids using a forecast of the monthly Basic Service load.

Attachment 1

Table of Credit Exposure Limits

This table sets forth the maximum unsecured credit exposure that NSTAR Electric may have to any individual entity based on its credit rating tier. The applicable credit rating tier is based on an entity's senior unsecured debt ratings, or in the absence of such ratings, the entity's Corporate Credit ratings. In the case of split credit ratings, the lower of such ratings shall apply unless such ratings differ by more than one tier, in which case, one tier above the lower of such ratings shall apply. For entities that are guarantors of counterparties, the maximum exposure is the lesser of the amount of the guaranty or the Rating Limit set forth in this table. Please note that the "Rating Limits" are subject to change in NSTAR Electric's sole discretion.

Tier	S&P Rating	Moody's Rating	Internal Rating	Rating Limit
1	AA- or Higher	Aa3 or Higher	AA- or Higher	\$60,000,000
2	A+, A	A1, A2	A+, A	\$50,000,000
3	A-	A3	A-	\$40,000,000
4	BBB+	Baa1	BBB+	\$30,000,000
5	BBB	Baa2	BBB	\$20,000,000
6	BBB-	Baa3	BBB-	\$10,000,000
7	Below BBB- (or unrated)	Below Baa3 (or unrated)	Below BBB- (or unrated)	Security Required
