

## Customer Information Files

Eversource provides customer information to electricity/broker suppliers in an unbiased manner and according to our legal obligations as outlined below. The information available to competitive suppliers include:

- Customer name, mailing address and service address
- Monthly meter reading date
- Rate class
- Previous twelve months of Therm/kilowatt-hour usage (at your current location)
- Type of service – Default or Standard Offer
- Date customer information is provided to supplier
- Expiration date of customer information

Please read the following agreement before proceeding.

As a supplier, I represent and warrant that I am a licensed competitive broker/supplier in the Commonwealth of Massachusetts pursuant to regulations in 220 C.M.R. 11.05 and I will not use any information provided pursuant to this request for any purpose other than to market electricity and related services.

Electricity/Gas-related Services are any activities associated with a customer's consumption. The activity may be either supply- or demand-related. Supply-related activities are actions taken in an attempt to become a customer's competitive or electricity/gas broker. Demand -related activities are actions taken in an attempt to provide energy efficiency or load response service to a customer.

Customer information will be sent by secure email once signed form is received.

Please sign and date and return.
