
WESTERN MASSACHUSETTS
EXTRA LARGE PRIMARY SERVICE TIME-OF-USE

RATE T-5

APPLICABILITY

This rate is applicable only to the entire use of electricity at a single location in the Western Massachusetts territory where service requires only primary facilities. All electricity shall be measured through one meter, except that, where the Company deems it impractical to deliver electricity through one service, or where more than one meter has been installed, then the measurement of electricity may be by two or more meters. All electricity supplied shall be for the exclusive use of the customer and shall not be resold. With the approval of the Company, the customer may furnish electricity to persons or concerns who occupy space in the building to which service is supplied hereunder, but on the express condition that the customer shall not resell, make a specific charge for, or re-meter (or sub-meter) or measure or control the use of, any of the electricity so furnished.

Customers whose maximum demand equaled or exceeded 2,500 kW at any time in the most recent 12 months and new customers whose demand is reasonably anticipated to equal or exceed 2,500 kW within one year must take service under this rate.

RATE PER MONTH

ON-PEAK: Weekdays from 12 Noon to 8 p.m., EST

OFF-PEAK: All other hours

Delivery Services:

Customer Charge:	As per M.D.P.U. No. 2 as in effect from time to time.
Distribution:	As per M.D.P.U. No. 2 as in effect from time to time.

Performance Based Revenue Adjustment	Solar Expansion Cost Recovery Mechanism
Vegetation Management	Miscellaneous Charges
Solar Massachusetts Renewable Target	2017 Tax Act Credit

MISCELLANEOUS CREDITS

Transformer Ownership Credit: If the service transformers and associated equipment, except metering, are furnished by the customer, a credit shall be applied to the bill equal to:

First 1,000 kW of maximum monthly demand	\$0.20 per kW
All over 1,000 kW of maximum monthly demand	\$0.10 per kW

Metering Credit: The Company may meter the electricity delivered to the customer on the higher voltage side of the service transformers, in which case the number of kWh so registered shall be reduced by two (2) percent.

TRANSMISSION BILLING ADJUSTMENT

Pursuant to D.P.U. 12-97, Rate T-5 customers will be billed on the basis of the customer's demand at the time of the Company's System Peak (the Coincident Peak Demand). The Coincident Peak Demand will be billed on a one month lag. Customers will receive a credit for the amount billed on the Transmission On-Peak Demand Charge from the prior month.

ADJUSTMENT FOR SERVICE AT TRANSMISSION VOLTAGE:

If a Customer is provided service at 69 kV or higher, and furnishes, owns and maintains all service transformers and associated equipment except metering, which shall measure transmission voltage, the Customer will not be billed the distribution demand and energy charge effective under this tariff.

RATE T-5

DETERMINATION OF DEMAND FOR DEMAND CHARGE:

Measurement of demand will be on the basis of the Company's available metering determined to the nearest one-half kW.

The On-Peak Demand shall be determined by meter, monthly, and shall be the highest 30-minute kilowatt registration during the month in the On-Peak hours

The Coincident Peak Demand shall be determined by meter, each calendar month on a one month lag basis, and shall be the customer's coincident 60-minute kilowatt demand at the time of the Company's System Peak.

POWER FACTOR CORRECTION

If a customer is found to have a power factor of less than 90% lagging, the Company may require correction to at least 90% lagging as a condition of service. If the customer does not correct the power factor to at least 90% lagging and the Company corrects the condition, the customer will reimburse the Company for all costs which it incurs.

MINIMUM MONTHLY CHARGE

The minimum charge is the customer charge.

TERMS

The Company's Terms and Conditions in effect from time to time, where not inconsistent with any specific provisions hereof, are a part of this rate schedule.

TELEMETERING REQUIREMENT

The customer agrees that it is necessary to install telemetering equipment for the Company to read the meter(s). The location of such facilities shall be at the sole discretion of the Company. The customer will choose to provide a dedicated direct dial analog phone line. The provision of a suitable dedicated direct dial analog telephone line in the reasonable proximity of the electric meter as determined by the Company's specifications is the sole responsibility of the customer. The customer shall be the owner of all telephone lines and shall maintain them in operable condition at all times. The Company will be responsible for the

installation and maintenance of the connection between the telemetering equipment and the customer's telephone line.

TERM OF CONTRACT

Customers served under this rate must provide the Company with six months prior written notice before installing, or allowing to be installed for its use, a non-emergency generator with a nameplate capacity greater than that in place on the Customer's location as of March 1, 1998. Also, customers receiving service under this or superseding rate schedule may not change to another rate schedule within the first 12 months of the service.
