

Summary of Business Gas Rates (CT)

Last Updated: April 1, 2026

The following rates are available to customers and have been approved by the Connecticut Public Utilities Regulatory Authority. In order to calculate a total bill, the Supply Charge (also known as the Purchased Gas Adjustment) would need to be included in addition to the Delivery Service Charges listed below. The Supply Charge is established monthly in accordance with and pursuant to the Purchased Gas Adjustment Clause as approved by the Public Utilities Regulatory Authority. The rates are listed on both the Yankee Gas dba Eversource Energy and the Public Utilities Regulatory Authority websites.

10 – Small General Firm Service

This rate is for small-sized commercial or industrial customers with actual or expected annual natural gas usage of up to 5,000 Ccf. Usage up to 200 Ccf of natural gas per month is billed at one rate, and all other usage beyond 200 Ccf per month is billed at a lower rate. All commercial and industrial customers have a Demand Charge on their bill which takes into account individual customer peak demands – or what is required by Eversource Energy's distribution system to service them. In addition, the customer is billed a demand based rate called the Sales Services Demand Charge (or referred to as the Transportation Services Demand Charge, if the customer chooses a third party supplier for their gas supply) which recovers gas supply-related costs associated with Yankee Gas dba Eversource Energy's Liquefied Natural Gas ("LNG") facility. Customers on this rate have the option of having a telemetering device (Daily Demand Meter) for a monthly fee. NOTE: Customers that elect Operator Gas Supply Service are subject to the TSC Shifted Cost charge of \$0.0411 per Ccf.

- Customer Service Charge (per month): \$61.28
- (Optional) Daily Demand Meter Charge (per month): \$44.26
- Demand Charge (per Ccf of billing demand): \$1.8588
- Delivery Charge (per Ccf):
 - First 200 Ccf: \$0.7913
 - All over 200 Ccf: \$0.4606
- System Expansion Reconciliation Mechanism (per Ccf of billing demand): \$0.3133
- Gas System Improvement Charge (per Ccf): \$0.0305
- Distribution Integrity Management Program Rate (per Ccf of billing demand): \$0.3578
- Revenue Decoupling Mechanism (per Ccf): \$0.0577
- Conservation Adjustment Mechanism (per Ccf): \$0.0460
- Sales Services Demand Charge (per Ccf of billing demand): \$0.5045

20 – Medium General Firm Service

This rate is for medium-sized commercial or industrial customers with an actual or expected annual natural gas usage that is greater than 5,000 Ccf, but less than or equal to 20,000 Ccf. Usage up to 1,000 Ccf of natural gas per month is billed at one rate, and all other usage beyond 1,000 Ccf per month is billed at a lower rate. All commercial and industrial customers have a Demand Charge on their bill which takes into account individual customer peak demands – or what is required by Eversource Energy's distribution system to service them. In addition, the customer is billed a demand based rate called the Sales Services Demand Charge (or referred to as the Transportation Services Demand Charge, if the customer chooses a third party supplier for their gas supply) which recovers gas supply-related costs associated with Yankee Gas dba Eversource Energy's Liquefied Natural Gas ("LNG") facility. Customers on this rate are required to have a telemetering device (Daily Demand Meter) for a monthly fee. NOTE: Customers that elect Operator Gas Supply Service are subject to the TSC Shifted Cost charge of \$0.0411 per Ccf.

- Customer Service Charge (per month): \$102.98
- Daily Demand Meter Charge (per month): \$44.26
- Demand Charge (per Ccf of billing demand): \$2.9339
- Delivery Charge (per Ccf):
 - First 1,000 Ccf: \$0.4283
 - All over 1,000 Ccf: \$0.1362
- System Expansion Reconciliation Mechanism (per Ccf of billing demand): \$0.2579
- Gas System Improvement Charge (per Ccf): \$0.0305
- Distribution Integrity Management Program Rate (per Ccf of billing demand): \$0.3022
- Revenue Decoupling Mechanism (per Ccf): \$0.0577
- Conservation Adjustment Mechanism (per Ccf): \$0.0460
- Sales Services Demand Charge (per Ccf of billing demand): \$0.5165

30 – Large General Firm Service

This rate is for large-sized commercial or industrial customers with actual or expected annual consumption of greater than 20,000 Ccf. Usage up to 2,500 Ccf of natural gas per month is billed at one rate, and all other usage beyond 2,500 Ccf per

month is billed at a lower rate. All commercial and industrial customers have a Demand Charge on their bill which takes into account individual customer peak demands – or what is required by Eversource Energy's distribution system to service them. In addition, the customer is billed a demand based rate called the Sales Services Demand Charge (or referred to as the Transportation Services Demand Charge, if the customer chooses a third party supplier for their gas supply) which recovers gas supply-related costs associated with Yankee Gas dba Eversource Energy's Liquefied Natural Gas ("LNG") facility. Customers on this rate are required to have a telemetering device (Daily Demand Meter) for a monthly fee. NOTE: Customers that elect Operator Gas Supply Service are subject to the TSC Shifted Cost charge of \$0.0411 per Ccf.

- Customer Service Charge (per month): \$282.08
- Daily Demand Meter Charge (per month): \$44.26
- Demand Charge (per Ccf of billing demand): \$4.4936
- Delivery Charge (per Ccf)
 - First 2,500 Ccf: \$0.2648
 - All over 2,500 Ccf: \$0.0452
- System Expansion Reconciliation Mechanism (per Ccf of billing demand): \$0.2105
- Gas System Improvement Charge (per Ccf): \$0.0305
- Distribution Integrity Management Program Rate (per Ccf of billing demand): \$0.2330
- Revenue Decoupling Mechanism (per Ccf): \$0.0577
- Conservation Adjustment Mechanism (per Ccf): \$0.0460
- Sales Services Demand Charge (per Ccf of billing demand): \$0.4498

10-SE – Small General Firm Service - System Expansion

This rate is for new service provided to small-sized commercial or industrial customers as of January 1, 2014. Customers on this rate have an actual or expected annual natural gas usage of up to 5,000 Ccf. Usage up to 200 Ccf of natural gas per month is billed at one rate, and all other usage beyond 200 Ccf per month is billed at a lower rate. All commercial and industrial customers have a Demand Charge on their bill which takes into account individual customer peak demands – or what is required by Eversource Energy's distribution system to service them. In addition, the customer is billed a demand based rate called the Sales Services Demand Charge (or referred to as the Transportation Services Demand Charge, if the customer chooses a third party supplier for their gas supply) which recovers gas supply-related costs associated with Yankee Gas dba Eversource Energy's Liquefied Natural Gas ("LNG") facility. Customers on this rate have the option of having a telemetering device (Daily Demand Meter) for a monthly fee. NOTE: Customers that elect Operator Gas Supply Service are subject to the TSC Shifted Cost charge of \$0.0411 per Ccf.

Below are the current Rate 10-SE rates for "on main" and "off main" customers. An "on main" customer is defined as a customer who has an existing main that is directly in front of their premises as of December 31, 2013. An "off main" customer is defined as a customer whose service required the addition of a main in the street after December 31, 2013.

Rate 10-SE On Main

- Customer Service Charge (per month): \$67.41
- (Optional) Daily Demand Meter Charge (per month): \$48.69
- Demand Charge (per Ccf of billing demand): \$2.0447
- Delivery Charge (per Ccf)
 - First 200 Ccf: \$0.8704
 - All over 200 Ccf: \$0.5067
- Gas System Improvement Charge (per Ccf): \$0.0305
- Distribution Integrity Management Program Rate (per Ccf of billing demand): \$0.3578
- Revenue Decoupling Mechanism (per Ccf): \$0.0577
- Conservation Adjustment Mechanism (per Ccf): \$0.0460
- Sales Services Demand Charge (per Ccf of billing demand): \$0.5549

Rate 10-SE Off Main

- Customer Service Charge (per month): \$79.67
- (Optional) Daily Demand Meter Charge (per month): \$57.54
- Demand Charge (per Ccf of billing demand): \$2.4164
- Delivery Charge (per Ccf)
 - First 200 Ccf: \$1.0287
 - All over 200 Ccf: \$0.5989
- Gas System Improvement Charge (per Ccf): \$0.0305
- Distribution Integrity Management Program Rate (per Ccf of billing demand): \$0.3578
- Revenue Decoupling Mechanism (per Ccf): \$0.0577
- Conservation Adjustment Mechanism (per Ccf): \$0.0460
- Sales Services Demand Charge (per Ccf of billing demand): \$0.6559

20-SE – Medium General Firm Service - System Expansion

This rate is for new service provided to medium-sized commercial or industrial customers as of January 1, 2014. Customers on this rate have an actual or expected annual natural gas usage that is greater than 5,000 Ccf, but less than or equal to 20,000 Ccf. Usage up to 1,000 Ccf of natural gas per month is billed at one rate, and all other usage beyond 1,000 Ccf per month is billed at a lower rate. All commercial and industrial customers have a Demand Charge on their bill which takes into account individual customer peak demands – or what is required by Eversource Energy's distribution system to service them. In addition, the customer is billed a demand based rate called the Sales Services Demand Charge (or referred to as the Transportation Services Demand Charge, if the customer chooses a third party supplier for their gas supply) which recovers gas supply-related costs associated with Yankee Gas dba Eversource Energy's Liquefied Natural Gas ("LNG") facility. Customers on this rate are required to have a telemetering device (Daily Demand Meter) for a monthly fee. NOTE: Customers that elect Operator Gas Supply Service are subject to the TSC Shifted Cost charge of \$0.0411 per Ccf.

Below are the current Rate 20-SE rates for "on main" and "off main" customers. An "on main" customer is defined as a customer who has an existing main that is directly in front of their premises as of December 31, 2013. An "off main" customer is defined as a customer whose service required the addition of a main in the street after December 31, 2013.

Rate 20-SE On Main

- Customer Service Charge (per month): \$113.28
- Daily Demand Meter Charge (per month): \$48.69
- Demand Charge (per Ccf of billing demand): \$3.2273
