

Summary of Residential Gas Rates (CT)

Last Updated: November 15, 2018

The following rates are available to customers and have been approved by the Connecticut Public Utilities Regulatory Authority. In order to calculate a total bill, the Supply Charge (also known as the Purchased Gas Adjustment) would need to be included in addition to the Delivery Service Charges listed below. The Supply Charge is established monthly in accordance with and pursuant to the Purchased Gas Adjustment Clause as approved by the Public Utilities Regulatory Authority. The rates are listed on both the Yankee Gas dba Eversource Energy and the Public Utilities Regulatory Authority websites.

01 – Residential Non-Heating Service

This rate is for all single family residential dwellings, and multi-family residential dwellings serving five or less units from a single meter, where the use of natural gas is for purposes other than space heating (i.e. water heating, cooking, fireplace, etc.).
