NOTICE OF FILING, CANCELLED PUBLIC HEARING, AND EXTENSION OF DEADLINE FOR WRITTEN COMMENTS

D.P.U. 19-120

March 12, 2020

Petition of NSTAR Gas Company doing business as Eversource Energy, pursuant to G.L. c. 164, § 94 and 220 CMR 5.00, for Approval of General Increases in Base Distribution Rates for Gas Service.

On November 8, 2019, NSTAR Gas Company doing business as Eversource Energy (“NSTAR Gas” or “Company”) filed a petition with the Department of Public Utilities (“Department”) for a general increase in gas base distribution rates. The Department has docketed this matter as D.P.U. 19-120, and it has suspended the effective date of the proposed rate increase until October 1, 2020, to investigate the propriety of the Company’s request.

NSTAR Gas seeks approval for an increase in base distribution rate revenues of \$38.03 million, which represents an increase of 19.0 percent in total base distribution rate revenues if approved without change. NSTAR Gas has requested to delay implementation of changes in rates to November 1, 2020, based on rate increases effective October 1, 2020. The Company was last granted an increase in base distribution rates in 2016. NSTAR Gas Company, D.P.U. 14-150 (2015).

The Company proposes to transfer costs that are currently recovered from customers through the gas system enhancement plan (“GSEP”) to distribution rates for rates effective November 1, 2020. Because there is a delay in recovery through the GSEP, however, the Company proposes to not fully recover the remaining balance in the GSEP until May 1, 2021.

Additionally, the Company proposes to implement a performance-based ratemaking (“PBR”) mechanism that would allow NSTAR Gas to adjust its distribution rates on an annual basis through the application of a revenue-cap formula and to put in place a set of metrics to evaluate the Company’s performance. The PBR plan includes two demonstration projects: (1) a gas demand response project and (2) a geothermal network project. The Company proposes to implement the PBR plan for five years with the possibility for extension. Additional information regarding these and all other proposals can be found in the Company’s filing.

The Company states that if its petition is approved as requested, the proposed revenue increase will have the following effects from November 1, 2020, through April 30, 2021:

- a typical residential heating customer using an average 126 therms per month will experience an average bill increase of \$22.56 per month, or 12.6 percent;
- a typical residential low-income heating customer using an average 123 therms per month will experience an average bill increase of \$16.48 per month, or 12.6 percent;
- a typical residential non-heating customer using an average of 14 therms per month will experience an average bill increase of \$3.53 per month, or 12.4 percent.

The Company states that the estimated recovery of the remaining balance in the GSEP on May 1, 2021, would reduce the bill increases customers experience after the Company's proposed rates go into effect on November 1, 2020, depending upon their rate classification and usage. In addition, bill impacts for commercial and industrial customers will vary depending upon their rate classification and level of usage. For specific impacts, please contact the Company as indicated below.

On November 26, 2019, the Department issued a Notice of Filing, Procedural Conference, and Public Hearing and scheduled five public hearings throughout the Company's service territory.
