

THE CONNECTICUT LIGHT AND POWER COMPANY, DBA EVERSOURCE ENERGY
RIDER N – NON-CLASS I RENEWABLE AND QF
SELF-GENERATOR NET ENERGY BILLING SERVICE

Page 1 of 1

AVAILABLE to any Qualifying Facility whose installed generating capacity is less than 50 kilowatts, or if fueled by a non-Class I renewable resource is less than 500 kilowatts.

APPLICABLE to customers receiving service under Rates 1, 5, 7, 27, 30, 35, 37, 40, 41, 55, 56, 57 or 58.

MONTHLY RATE:

As determined under the applicable tariff but not less than the minimum charge of the applicable rate.

Customers who receive service under this rider shall be assessed the Competitive Transition Assessment and Systems Benefits Charge based on the amount of electricity consumed by the customer from the facilities of the Company without netting any electricity produced by the customer.

If energy sold to the Company exceeds energy purchased, the net sales will be credited to the customer according to the applicable provisions of Rate 980.

INTERCONNECTION REQUIREMENTS:

The installation of a generation system that will interconnect with the Company's electric distribution system requires the approval of the Company. The owner of the generation system is required to file an interconnection application with the Company and to comply with the applicable requirements contained in The Connecticut Light and Power Company Guidelines for Generator Interconnection.

METER COMMUNICATIONS REQUIREMENT: Dependent on the meter technologies available and supported by the Company, a customer on Rates 7, 27, 37, 41, 55, 56, 57 or 58, agrees that it is necessary to install communication equipment for the Company to read the meter(s). The type and location of such remote communication equipment shall be at the sole discretion of the Company, and it is the sole responsibility of the Customer to provide communication equipment in the proximity of the electric meter as determined by the Company's specifications. The Customer shall be the owner of communication equipment and shall maintain such equipment in operable condition at all times. The Company will be responsible for the installation and maintenance of the connection between the meter communication equipment and the Company's meter.

TERM OF CONTRACT:

Customers electing service under this rider must remain on the rider for at least 12 consecutive months.
