Fuel Cell Electricity Generation Projects Solicitation Attachment 2: Supplemental Bid Information

This form is mandatory and must be submitted in the final step of the Bid process, or sent via email to Eversource at ctrenewables@eversource.com before the bid deadline of 1:00pm EST on November 18, 2021. Failure to comply with the aforementioned instructions will result in disqualification of your Bid.

Any capitalized terms used but not defined herein shall have the meaning set forth in the RFP and/or the Terms and Conditions.

Please provide detailed answers to the following questions:

1. Will this project be “standalone”, or will it be serving load? Please explain.

2. If the project will be serving load, and it is new construction (i.e. does not currently have a revenue meter at the site but will in the future), please also provide responses to the following questions:
 - a. Please describe the entity who will ultimately be the customer of record with the EDC. Will they be a business or residence? Commercial, industrial, manufacturer, condominium complex, box store, etc.?

- b. Please describe the expected energy usage/demand providing as much available detail as possible.

EVERSOURCE

3. Please explain how your project meets the following criteria. Note: If your project is “standalone (i.e. not serving load),” it must either provide emergency service facilities with back-up power (item b below) or enhance distribution system reliability (item c below) pursuant to PURA’s October 6, 2021 Interim Decision in Docket No. 21-08-08.
- a. Facility will be providing commercial or industrial electric or gas customers with on-site generation that increases power quality or resilience, as defined in Conn. Gen. Stat. § 16-243y, or reduces energy costs for such customers.

- b. Facility will be providing emergency service facilities or commercial or industrial electric or gas customers with back-up power.

- c. Facility will be enhancing distribution system reliability, including, but not limited to, electric voltage or frequency improvements, support of microgrids or other measures that support electric or gas system resiliency. The authority shall evaluate any projects submitted pursuant to this section in a manner that is consistent with the provisions of Conn. Gen. Stat. § 16-19 and 16-19e.

EVERSOURCE

4. Please explain how your project qualifies for any of the following Bid Preferences, if applicable:
- a. Sited on a Brownfield. If claiming this Bid Preference, you must also include a site map indicating the site address, and site description.¹

- b. Sited on a Landfill. If claiming this Bid Preference, you must attach a copy of the Closed Landfills List with your project site highlighted or circled, as well as a site map indicating the site address and site description.¹

- c. Projects claiming to utilize equipment Manufactured in the state of Connecticut are required to submit both the Bidder and Technology Supplier Affidavits which may suffice as an explanation for meeting such Bid Preference.

¹ Note: Eversource will consult with DEEP to determine if the project meets the appropriate qualifying criteria for the landfill and brownfield preferences. All information transmitted to DEEP in furtherance of this determination, including the response to this question along with the attached site map and any other attachments pertaining to the applicability of this Bid Preference, may be subject to disclosure under the Connecticut Freedom of Information Act (FOIA). By submitting confidential information to Eversource in order to qualify for the landfill or brownfield bid preferences, the bidder acknowledges that the FOIA governs the public's accessibility to that information. If such confidential information is responsive to a FOIA request, the bidder will have the opportunity to redact information that is exempt from disclosure under FOIA prior to production by DEEP.
