**Pursuant to Section 2(f) of Public Act 15-194, "Any customer of an Electric Distribution Company that is eligible for the residential solar investment program shall not be eligible for small zero-emission renewable energy credits pursuant to section 16-244s."**

#### **WHAT THIS MEANS FOR APPLICANTS:**

- 1. If your project qualifies for the Connecticut Green Bank's Residential Solar Investment Program, it no longer qualifies for the Small ZREC program.**
- 2. All residential applicants will be required to submit a copy of the "Incentive Application Denied" letter issued by the Connecticut Green Bank as an attachment to their Year 4 Small ZREC application. Therefore, if your Small ZREC project is or will be at a residential site (Eversource Electric rates 1, 5, or 7), you must first apply to the Connecticut Green Bank, and if denied, you must provide a PDF copy of your "Incentive Application Denied" letter as a required attachment during step 6/6 in the application process.
