

**Connecticut Licensed Professional Engineer Certification
of Average Annual Production of the Facility**

Instructions:

If you checked the box in Small ZREC Tariff Reference: Section 7.1 of Step 5 of the Application – Application Evaluation Information, the average annual production provided must be supported by a calculation approved by a Connecticut licensed Professional Engineer. The approved calculation supporting this average annual production must be provided as a PDF attached to the Application at the time of Application submission.

The Application Rules provide conditions upon which Applicant may choose to or be required to provide a calculation of the average annual production as determined by a Connecticut licensed Professional Engineer. Any such calculation must be consistent with the guidelines provided in the Application Rules. If such average annual production calculation is provided, the Professional Engineer certified calculation supporting this determination must be attached to its Application.

Please ensure that the Professional Engineer certified calculation includes the entire project Site Address, inclusive of street number, street name, city, state, and zip code.
