

New Canaan Gas Expansion Construction Activities: December 23, 2019 – January 5, 2020

Gas construction activities to install and improve the natural gas distribution system in New Canaan will be significantly reduced during the last two weeks of December by crews from Burns Construction. There will be no main installations performed between December 23, 2019 through January 5, 2020. Burns Construction will only be performing individual gas service line preparations and installations during this time and will be working directly with specific homeowners and providing appointments to complete our work. We appreciate everyone’s patience during 2019 as we ramped up our construction activities. We realize that living and working within an active construction zone can be challenging.

Date	Contractor	Type of Work	Affected Streets
Thursday, 12/26/19 8:30 a.m. – 4 p.m.	Burns Construction	Service Line preparation and installation	• Farm Road
Friday, 12/27/19 8:30 a.m. – 4 p.m.	Burns Construction	Service Line preparation and installation	• Old Stamford Road

2019 New Canaan Gas Expansion Update:

Eversource has made substantial progress in its construction activities for the New Canaan Gas Expansion Project. We have completed a significant amount of work since we began in 2018 during this three year/phase project. While additional activities may still remain to complete Phase 2, we anticipate that Burns Construction will resume activities mid-January 2020.

Eversource will continue working closely with both First Selectman Kevin Moynihan and Public Works Director Tiger Mann, as we make plans to resume construction activities for Phase 3, the final phase of this expansion project. We know that maintaining strong relationships with our community partners is vital to the successful completion of this project. Once we have established plans with the Town and the coordination of the work has been agreed upon, we will notify affected customers and businesses of the new construction schedule. Updates of our construction plan and any public impacts will be posted on the Eversource.com website.

COMPLETED MILESTONES:

- Installed and energized 22,172 feet of underground gas main infrastructure.
- Installed 309 service lines to resident properties.
- Fully energized gas service to South Elementary School, Saxe Middle School, New Canaan High School, New Canaan Police Department, New Canaan Volunteer Ambulance and New Canaan Community YMCA.
- Temporary paving was completed, and permanent paving in certain areas will take place in the spring.
- Phase 3 activities planned for 2020 are being finalized.

Additional Information:

Eversource remains committed to providing reliable service as well as accurate and timely information. Keeping the lines of communication open is an important part of our work in your community.
