

"On November 16, 2010, Waterbury Generation, LLC was granted waiver of its OASIS scheduling obligation for use of the NU 1990 Line to NU's Baldwin Substation. The waiver will terminate upon notice from the NU Companies to Waterbury that the 1990 line to the Baldwin Substation has potentially become subject to a competing transmission reservation as a result of subsequent generator interconnection that could, if simultaneous dispatch were to occur, exceed the transmission capability of the subject Local Facilities. See Letter Order Dated Nov. 16, 2010, in FERC Docket No. ER10-2760-000. 133 FERC ¶ 61,137, (2010)."
